GOVERNMENT OF THE NORTHWEST TERRITORIES
CONTRACTS OVER $5,000 REPORT

FOR THE FISCAL YEAR ENDING
MARCH 31, 2015

Introduction

The Government of the Northwest Territories (GNWT) Contract Registry, Reporting System (CRRS) and Contract Opportunities Website provide reporting on contracting in the interests of transparency, access to information, and to ensure compliance with standardized reporting requirements under the Agreement on Internal Trade.

In addition, the CRRS enables the GNWT to:

(a) Evaluate trends to provide assurance that departments and applicable agencies comply with contracting regulations and policies; and
(b) Quantify the GNWT Business Incentive Policy (BIP) bid adjustments applied, if any, on GNWT procurement activities.

A central listing of public tenders, proposals, and award results can be found at www.gov.nt.ca/contractopportunities.

The GNWT Contracts Over $5,000 Report includes all contracts for Goods, Services and Construction in excess of $5,000 issued by the GNWT to businesses. Salaries and wages, non-commercial payments to non-profit organizations and individuals and grants, contributions and subsidies are excluded from the Report.

This Report summarizes the overall contract activity of the GNWT during the fiscal year 2014 – 2015.

Report Title: Contracts over $5,000 - Contract Detail by Department/Agency, by Business Name

Report Type: OD-CR10A - Basic Contract Report
This type of report prints data about contracts issued
pursuant to a procurement entered into the system. It selects
base data that meets the following conditions:
-  A valid procurement exists, and it is not cancelled.
-  At least one valid bid (including a valid Business) is on file.
-  An award has been made to a valid bid.
-  At least one contract has been issued to a valid bidder.

The base data for each contract and all associated amendments

by the start date entered for the contract or any amendments.
Only amounts specified on a document with a start date in the
fiscal year of the report are actually reported.

Report Title:

Report Type: OD-CR20A - Basic Bid Report
This type of report prints data about procurements that have been
closed and awarded. It selects base data that meets the
following conditions:
-  A valid procurement exists and it is not cancelled.
-  At least one valid bid (including a valid Business) is on file.
-  An award has been made to a valid bid.
-  Contracts are considered immaterial and do not influence whether
   a procurement is reported.

The base data for each awarded bid of each procurement is summarized
into a single report line. Some reports summarize further, but the
combination procurement number and winning bidder is the lowest level
of detail with this type of report.

The fiscal period for procurements on this report is determined
by the closing date entered for the procurement. Only procurements
with a closing date in the fiscal year of the report are actually
reported.

The fiscal period for contracts on this report is determined
by the start date entered for the contract or any amendments.
Only amounts specified on a document with a start date in the
